

CURRICULUM VITAE

KUMBIRAI BENJAMIN DEVE

BEng Electronic (2016), University of Pretoria

Front-End Web Developer (1 year experience)

21 Fountain Road, Beverly AH, Sandton / Mobile: +27 (0) 81 346 6039 / kbdeve@gmail.com

Summary: *I am an Electronic Engineer by training from the University of Pretoria, however, am now a practicing front-end web developer at Ex Mente Technologies (a metallurgy consultancy company in Pretoria with a software department). I ventured into software because I found myself drawn to the software components of my training and it appeared to be a career line with the potential for more job satisfaction. At Ex Mente Technologies, I use Typescript to develop web desktop applications using Angular. Stemming from this, I am also adept with JavaScript, CSS and HTML. I am highly motivated by the prospect of developing my skills as a front-end developer and hope to soon be a full-stack developer. I work in a team with a back-end developer and I am tasked with redeveloping the front-end of the existing web application for Ex Mente. I am gaining experience in creating scalable and maintainable Angular applications. I am creating reusable components and modules in Angular and I write unit tests for these components. I am looking to relocate work as I live in Johannesburg.*

Work Experience

November 2017 - Current

Ex Mente Technologies (Pretoria)

Position

Junior Front-End Angular Web Development

Key Duties

- Redevelopment of existing software in Angular
- Create scalable and maintainable Angular applications
