CURRICULUM VITAE

KUMBIRAI BENJAMIN DEVE

BEng Electronic (2016), University of Pretoria

Front-End Web Developer (2-4 years' experience)

21 Fountain Road, Beverly AH, Sandton | Mobile: +27 (0) 81 346 6039 | kbdeve@gmail.com

Summary: I am an Electronic Engineer by training from the University of Pretoria and I am now a practicing front-end web developer. I began my career as a junior Frontend Developer at Ex Mente Technologies (a metallurgy consultancy company in Pretoria with a software department). I have done a couple of freelance projects where i have created Angular and Ionic apps which are currently active on Play and Apple stores. I am currently working in the Managed Services Team at Dimension Data doing Microsoft support services.

I have been using mainly Typescript to develop freelance web desktop applications using Angular. Stemming from this, I am also adept with JavaScript, CSS and HTML. I am highly motivated by the prospect of developing my skills as a front-end developer and hope to soon be a full-stack developer.
